Brief Unit Guide

the Master

The **Liberty Master** comprises of two separate steel units. The generator etc is housed in its own 6' x 9' shell, with the main welfare unit located within a 26' x 9' unit. Connections between the units are site fixed. The units are manufactured from 1.6mm Corrugated Steel to walls, roof and doors. Corner posts are made from 3mm steel.

32' x 9'

- High-tech steel anti-vandal specification
- Operational within 10 minutes of arrival and ready for use
- No mains required
- Self-housed Generator
- Delivered fully serviced and ready to use
- Fully self-contained unit with canteen, office, toilet, wash and drying room
- External electrical connection (For additional 'plug in' accommodation units on site)

the Junior Plus

The **Liberty Junior Plus** comprises of two separate steel units. The generator etc is housed in its own 6' x 9' shell, with the main welfare unit located within a 26' x 9' unit. Connections between the units are site fixed. The units are manufactured from 1.6mm Corrugated Steel to walls, roof and doors. Corner posts are made from 3mm steel.

26' x 9'

- High-tech steel anti-vandal specification
- Operational within 10 minutes of arrival and ready for use
- No mains required
- Self-housed Generator
- Delivered fully serviced and ready to use
- Fully self-contained unit with canteen, office, toilet, wash and drying room
- External electrical connection (For additional 'plug in' accommodation units on site)
- Air conditioning fitted as standard (hot and cold temperature)

the Junior

The **Liberty Junior** comprises of two separate steel units. The generator etc is housed in its own 6' x 9' shell, with the main welfare unit located within a 21' x 9' unit. Connections between the units are site fixed. The units are manufactured from 1.6mm Corrugated Steel to walls, roof and doors. Corner posts are made from 3mm steel.

21' x 9'

- High-tech steel anti-vandal specification
- Operational within 10 minutes of arrival and ready for use
- No mains required
- Self-housed Generator
- Delivered fully serviced and ready to use
- Fully self-contained unit with canteen, toilet, wash and drying room
- External electrical connection (For additional 'plug in' accommodation units on site)

the Powered Toilet

The **Liberty Powered Toilet** is a self contained steel security mains toilet, which has two available options. Whichever choice is made the unit provides for two mains toilets, integral waste tank, two hand wash basins and a clean water supply.

12' x 9'

- High-tech steel anti-vandal specification
- Instantly operational
- Self-housed 15kva generator
- Integrated mains toilet facilities
- Built in waste tank and water tank
- Available option to include kitchenette
- External electrical connection (For additional 'plug in' accommodation units on site)
- 24 hour power pack backup

the Power Pack

Within the framework of a high security steel enclosure comes the **Liberty Guard Power Pack**. Incorporating a 15kva silenced generator and a substantial stainless steel water tank the unit provides ideal solution to your on site needs.
