- ◆ Self-housed generator
- ◆ Integrated mains toilet facilities
- ◆ Built in waste tank and water tank
- ◆ External electrical connection
- ◆ Available option to include kitchenette

an ideal solution when
faced with the absence
of mains services

The 12' x 9' Powered Toilet

The Liberty Powered Toilet is a self contained steel security mains toilet, which has two available options. Whichever choice is made the unit provides for two mains toilets, integral waste tank, two hand wash basins and a clean water supply.

The original Powered Toilet incorporates a stainless steel urinal and is ideal for applications where toilet provision is paramount. In option 2 the unit dispenses with the urinal and encompasses a stylish kitchenette. A sink unit, kettle, fridge and microwave are all included and is a perfect addition to our Marketing Suite range.

Both powered toilets come complete with a 15kva generator, providing power not only to the unit but with spare capacity for any required add-ons. The unit becomes completely self contained thereby providing an ideal solution when faced with the absence of mains services.
