WELFARE & PORTABLE ACCOMMODATION

WHO ARE WE?

The Liberty Group boasts over 40 years' experience within the modular and portable accommodation trade.

The company has grown to become one of the UK's largest independent suppliers of standard and specialised products within the industry.

Our head office located in Sandtoft, Doncaster acts as the central hub directing operations through our logistically positioned network, allowing us to deliver the highest quality of products and services to our extensive customer base.

Our dedicated partnership with our customers base allows us to stay ahead of the competition and deliver on the promises of business continuity.

The safety, health and wellbeing of our employees, customers, suppliers is an enduring priority. We strive continually to improve the safety of our people.

Our dedication to continually evolve in environmental sustainability solutions across our vast range of products to build climate resilience, reduce both our own and our Clients carbon footprint and protect biodiversity is at the heart of our core values. We strive forward to a sustainable future in the welfare industry.

PASUDA

MODULAR BUILDINGS

Our manufacturing division produces high quality modular accommodation including the latest high-tech and eco-friendly buildings.

Each building is individually created to the customer requirements and are offered in a variety of designs to meet your individual budget – All fully compliant with current Building Regulations.

The company's expertise in the field of modular buildings extends to full turnkey packages from design, foundations and civil, landscaping and services.

We offer a full project management service to ensure that your project is professionally coordinated and delivered to a stress-free conclusion. Pasuda's professionalism, quality, attention to detail and competitiveness have all been deciding factors towards its success in providing buildings throughout the spectrum of industry, commerce, utilities, and private organisations.

Our Modular Buildings are backed by our 25 Years Structural Guarantee providing the customer with confidence and peace of mind.

Pasuda's site service division are experts in the dismantling, moving and re-erection of modular buildings.

The site services team pride themselves in their abilities and their capacity to overcome difficulties faced, to think on their feet, all within a Health and Safety compliant framework.

BEFORE REFURBISHMENT

REFURBISHMENT DIVISION

Pasuda Buildings operate a dedicated cabin & container refurbishment centre. Utilising our steel fabrication and joinery facilities, we carry out full refurbishment, modification and reconfiguration of our customer's stock. Our dedicated workforce of welders, joiners, plumbers, electricians and paint sprayers can recycle your unit, back to new.

We can collect your cabin/container from your site, transport it to our refurbishment centre where it will be transformed to your requirements and then we will deliver and return the renovated cabin/container back to your site.

Old, tired and broken cabins can be upgraded and brought back to life considerably extending its working life. The results are truly remarkable.

A number of Pasuda's customers have turned to the company for their professional advice in upgrading their fleet rather than replacing with new.

Pasuda's refurbishment centre has been successful in providing a restoration programme aimed at both modernisation and energy performance of existing units. Through re-cycling and upgrading Pasuda has shown that the initial and ongoing carbon footprint of hire companies is substantially improved compared to purchasing new units.
